Three words that define a good leader:
Vision (Inspiration), team-builder, Execution (results oriented).

What is the most rewarding moment of your career to date?

When throughout the word of mouth my work is recommended, and people follow me because they know the results we can achieve together.

And the most challenging moment of your career?

Situations with "bosses" who disagree to deal with me because I was not part of their circle of confidence.

Name one woman who inspires you and why?

Leticia Jauregui - A young woman changing the world with new pathways and solutions through entrepreneurship.

Why did you decide to attend #WFMX17?

Because I do believe this is a good momentum to share my experience and vision about women for the future, but also this is a good opportunity to network with other successful women.

Did you attend Women's Forum Mexico in 2016; how did it impact you?

It impacted my understanding about equal opportunities, and it made me more sensitive about the real situation we live in our work, in our country and in our Region.

What do you expect from Women's Forum Mexico 2017?

To share my experience facing gender disparity and link with other leaders who are facing their own story, and help them to become more resilient. To learn and understand from Mexican Leaders and their commitment to keep developing women and gender opportunities.

What kind of leaders -or who- are you looking forward to meeting at #WFMX17?

Entrepreneurs, Social, Media, Corporation and Government leaders.

A book or a film on leadership that you would like to recommend to your fellow delegates?

[Historias de Mujeres](#) from Rosa Montero
